PROFILE

Motivated Software Developer with knowledge of C#, ASP.NET, SQL Server, HTML, CSS, JavaScript, PHP, and MySQL. Experienced in developing desktop and web applications, including Hospital Record Management System, 9P Human Capital Website, and Noble Box E-Commerce Platform. Passionate about building scalable and user-friendly software solutions.

Projects

9P Human Capital Website

- Developed a responsive corporate website for a human resource consulting organization using HTML, CSS, JavaScript.
- Designed service, career, and contact pages to improve client engagement and online presence.
- Implemented a modern user interface with mobile-friendly layouts and optimized website performance.
- Created a platform to showcase recruitment, talent management, and workforce solutions.

Noble Box E-Commerce Website

- Developed a real-time e-commerce platform for gift and product sales using HTML, CSS, JavaScript, PHP, and MySQL.
 - Implemented product catalog, shopping cart, user authentication, and order management features.
 - Designed a responsive and user-friendly interface to enhance customer experience across devices.
 - Integrated database functionality for product management and customer order processing..
-
